China

President Su, China Life Pension Company
Beng Neoh, Managing Director North Asia, AMP Capital

Our strategy in China

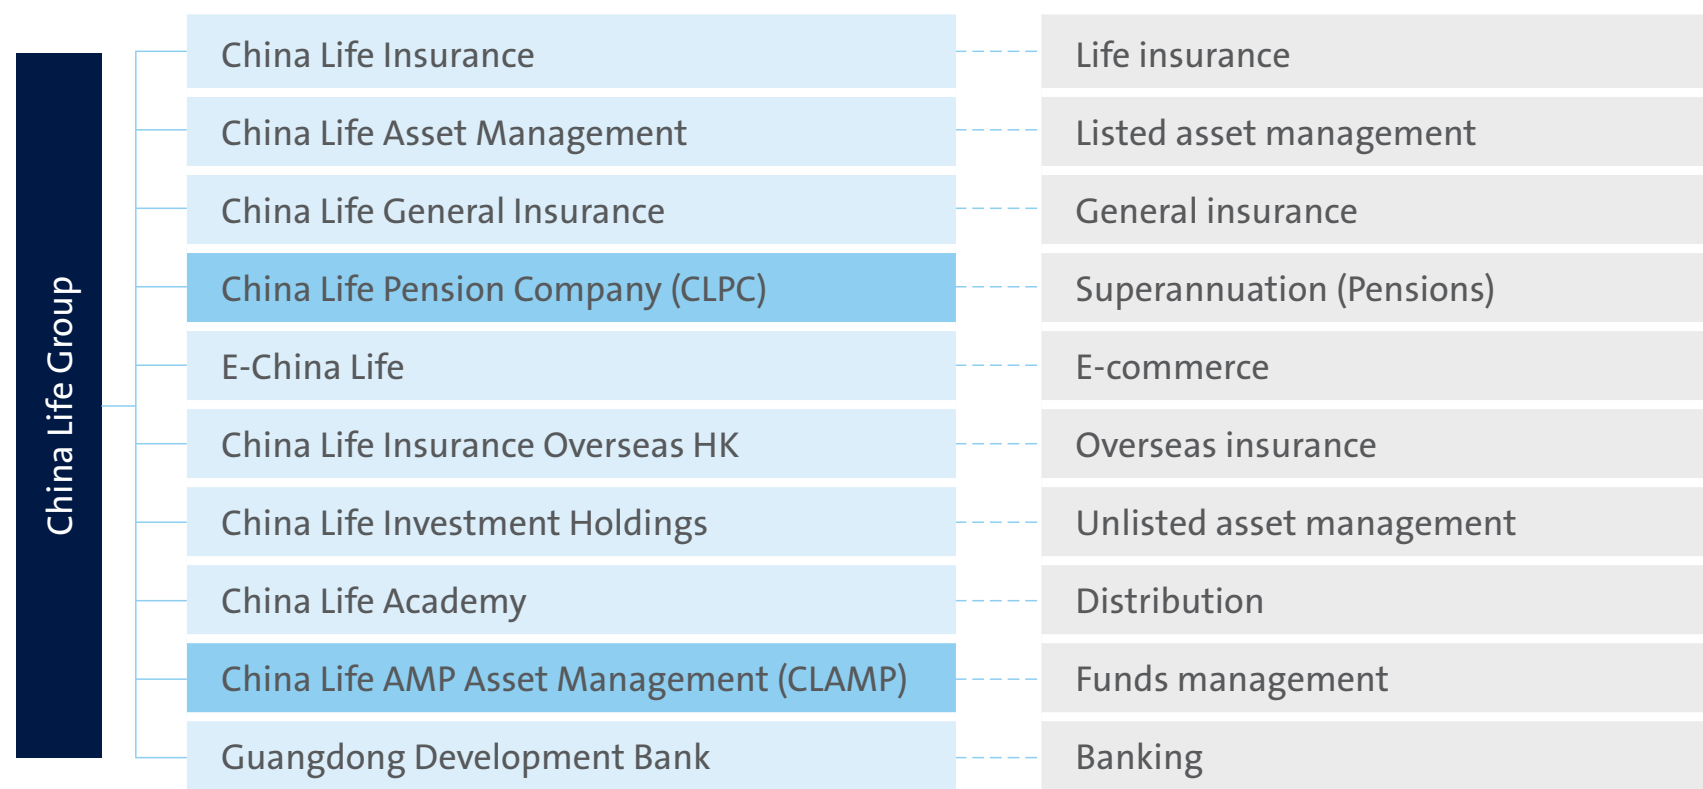

- Presence in China since 1997
- Adopted long-term, capital-light strategy
- Activities have closely followed China's financial services liberalisation
- Strategic partnership with China Life Group brings strong brand and distribution presence

Why China Life?

- Largest financial services company in China outside the big 4 banks – the 5th pillar
- 200 million customers, national coverage, with distribution force of 2 million people
- Manages over RMB 5 trillion in assets
- World's largest listed life insurance company by market capitalisation
- Ranked #54 in Global Fortune 500 companies in 2016

China Life Group

China Life Pension Company (CLPC)

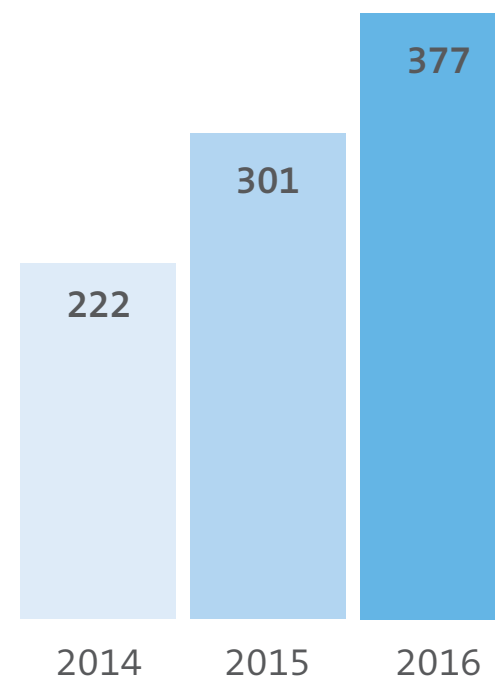

Trustee, investment management and account admin services in pensions

President Su, China Life Pension Company

CLPC overview

- Index
- Balanced funds

Future outlook

Strong growth outlook for our business in China

	Core business areas	Drivers of future outlook
CLPC	Offers pension solutions for corporate, institutional and retail clients	<ul style="list-style-type: none">– Retail pension: current penetration is negligible– Retirement age reforms– Demographics – the one-child policy has created ‘4-2-1’ families where the children cannot support their parents who must plan their retirement– Changing expectation to be more self-sufficient in retirement– Anticipated further tax incentives
CLAMP	Offers domestic and international funds in listed assets to retail and institutional clients	<ul style="list-style-type: none">– Chinese population saves on average 40% of income. As the economy matures, savings looking for investment opportunities beyond traditional bank deposits– Chinese government encouraging development of local capital markets– Growth in asset base of local institutional investors (i.e. insurance companies, pension companies) looking to invest internationally– CLAMP received Qualified Domestic Institutional License (QDII) allowing Chinese capital to be invested offshore. While CLAMP still awaits their quota from regulators, AMP Capital is working closely with CLAMP on potential offering in this market

Future outlook for our business in China

	Inbound	Outbound	Domestic
Strategy	<ul style="list-style-type: none"> – A trusted investment partner to invest internationally sourced capital in China 	<ul style="list-style-type: none"> – A preferred manager for Chinese offshore investments 	<ul style="list-style-type: none"> – A trusted strategic partner for China Life
Drivers of future outlook	<ul style="list-style-type: none"> – Increasing demand for Chinese assets when China is included in global market indices 	<ul style="list-style-type: none"> – Increasing need for Chinese financial services company to invest offshore as regulations permit over time – China's 3 sovereign wealth funds, with more than RMB 6 trillion in AUM, will also increase their offshore investment 	<ul style="list-style-type: none"> – Ongoing strong growth from our two businesses – AMP continues to explore cooperation in other areas with China Life
Potential sources of income for AMP	<ul style="list-style-type: none"> – Distribution fee – Investment management fee where CLAMP is the investment manager 	<ul style="list-style-type: none"> – Investment management fee 	<ul style="list-style-type: none"> – Increase in value of equity stakes – Future dividends – Potential inbound and outbound cashflow opportunities

Future outlook

- China pension industry set for rapid growth due to an ageing demographic
- China extremely focused on broadening and deepening its financial services industry, increasing customer share of wallet
- Outlook very positive for AMP's two businesses CLPC and CLAMP
- CLPC business expected to benefit from its strong position in the fast growing pension market
- Ambition to grow CLPC AUM by over 20% pa over the next 5 years and continue to be the market leader in China's pension market
- CLAMP business expected to continue growing strongly, extending its broad product offering. Intention to become a top 20 investment manager in China within 3 years
- AMP targeting earnings of around \$50 million per annum from the China businesses within 5 years
