How to vote

As a shareholder, you can vote on the items of business by:

- attending the meeting, or
- appointing a proxy, representative or attorney to attend the meeting and vote on your behalf.

Voting at the meeting

The board has determined that you will be entitled to attend and vote at the meeting if you are a registered shareholder of AMP at 7.00pm (Sydney time) on Tuesday 9 May 2017. You will be entitled to vote in respect of the number of AMP shares registered in your name at that time.

Voting on all items of business at the meeting will be conducted by poll.

Appointing a proxy

A shareholder who is entitled to attend and vote at the meeting may appoint a proxy to attend and vote at the meeting on their behalf. A proxy does not need to be a shareholder of AMP.

If a shareholder is entitled to cast two or more votes at the meeting, the shareholder may appoint two proxies and may specify the percentage or number of votes each proxy can exercise. If the proxy form does not specify the percentage or number of the shareholder's votes that each proxy may exercise, each proxy may exercise half of the shareholder's votes on a poll. Fractions will be disregarded.

Completed proxy forms (and any necessary supporting documents) must be received by AMP no later than 11.00am (Sydney time) on Tuesday 9 May 2017.

The chairman of the meeting intends to vote, as your proxy, in favour of each of the proposed resolutions (where permissible).

Item 3: Adoption of remuneration report

Remuneration at AMP is designed to align the interests of employees with the creation of value for shareholders. 2016 saw strong results from AMP Capital, AMP Bank and New Zealand, and a resilient performance from wealth management despite challenging market conditions. However, these results were overshadowed by a poor performance in wealth protection. Nonetheless, our capital position and underlying business remained strong and as a result shareholders will receive a final dividend of 14 cents per share, bringing the 2016 total dividend to 28 cents per share, the same total dividend payment as was delivered in 2015.

To ensure that remuneration outcomes are aligned with AMP's performance in 2016, the following decisions were approved by your board:

- No short-term incentive (STI) was paid to the CEO or key management personnel (KMP) executives for 2016 under the AMP Group STI plan.
- No salary increase will be made for the CEO in 2017. The only KMP executives who will receive an increase in 2017 are those executives whose roles significantly increased in the restructure that was announced in November 2016.

In addition:

- No portion of the long-term incentive (LTI) granted in 2014 is expected to vest.

Further information is available in the remuneration report, which appears on pages 28 to 50 of the AMP 2016 annual report. During this item, shareholders will be given an opportunity to ask questions about, and make comments on, the remuneration report.

Shareholders will be asked to vote on a resolution to adopt the remuneration report at the meeting. The vote on the resolution will be advisory only and will not bind the directors or AMP, however the board will take the outcome of the vote and any discussion into consideration when reviewing the remuneration policy for directors and executives in the future.

If you intend to appoint a proxy to vote on your behalf on the resolution for adoption of the remuneration report, please read the information on page 7 under the heading Chairman of the meeting as proxy.

Board recommendation

Each director recommends that shareholders vote in favour of adopting the remuneration report.

Item 4: Approval of the chief executive officer's long-term incentive for 2017

Under his employment agreement with AMP, CEO Craig Meller's remuneration consists of:

- fixed remuneration
- short-term incentives (STIs), and
- long-term incentives (LTIs) payable in performance rights (which are rights to receive shares or a cash equivalent on vesting of the rights).

Approximately 80% of the CEO's maximum remuneration opportunity for 2017 is made up of STI and LTI and is 'at risk'. Vesting of the CEO's 2017 LTI award is subject to AMP achieving relative total shareholder return performance above the average of its peer group. Details of the terms and conditions of the LTI award are provided on pages 13 to 17.

Why is shareholder approval being sought?

Any performance rights which may vest in the future may be converted into AMP ordinary shares. These shares would be purchased on market. AMP is not required to seek shareholder approval for the purchase of shares, however in the interests of transparency and good governance, AMP believes it is appropriate to do so.

Changes to 2017 CEO LTI award

The following changes will apply to the CEO LTI award in 2017:

- removal of the return on equity (RoE) performance hurdle so that 100% of the grant value will be subject to a total shareholder return (TSR) performance hurdle based on the relative TSR performance of AMP
- the performance period will increase from three to four years and commence from 1 January 2017.

RoE was introduced as a performance hurdle around the time of the AXA transaction to drive an improvement in RoE. With an improved RoE achieved over the last few years through capital efficiency activities across the business, a RoE measure is no longer considered appropriate for LTI purposes. Capital management will continue to be a key focus area for management. Our focus on underlying profit after tax (UPAT) less cost of capital ensures a continued focus on effective capital management and is a key consideration when determining individual performance. The performance hurdle has been increased from three to four years to increase the CEO's focus on long-term value creation.

What is the chief executive officer's proposed LTI for 2017?

The actual value (if any) that the CEO will receive from this award cannot be determined until the end of the four-year performance period and will depend on whether the performance hurdle is achieved and the share price at the time of vesting.

The board is proposing that AMP grant the CEO performance rights with a face value of 225% of his fixed remuneration as his LTI for 2017 (2017 grant). The CEO's fixed remuneration as at 1 April 2017 is \$1,900,000. Based on 225% of his fixed remuneration, AMP will grant \$4,275,000 worth of performance rights.

What are performance rights?

Each performance right will give the CEO the right to acquire one fully paid ordinary share in AMP if the applicable performance hurdle described on pages 13 to 15 is met at the end of the performance period (or the right otherwise vests). However, the board may, in its discretion, decide to satisfy performance rights in the 2017 grant by AMP making a cash payment to the CEO of an amount equivalent in value to the number of shares to which he would otherwise be entitled on vesting of the rights.

Performance rights are granted at no cost to the recipient. They do not carry dividend or voting rights or the right to participate in new issues of shares (such as any rights or bonus issues).

If there is a capital reconstruction or other corporate action by AMP (such as a rights or bonus issue), the board may make any adjustments it considers appropriate to the terms of the LTI award in order to minimise or eliminate any material advantage or disadvantage to the participant, and having regard to the Australian Securities Exchange (ASX) Listing Rules. These may include adjustments to the number of performance rights or the number of shares to which the participant is entitled on vesting of the performance rights.

How did the board determine the LTI arrangements?

In determining these LTI arrangements, the board took into account the nature of the position, the context of the current market, the function and purpose of the LTI component of AMP's remuneration strategy and other components of the CEO's remuneration.

What performance hurdle will apply to the performance rights?

The vesting of the performance rights for the 2017 grant will be based on a single performance hurdle.

One hundred per cent of the grant value will be subject to a total shareholder return (TSR) performance hurdle based on the relative TSR performance of AMP over a four-year performance period (from 1 January 2017 to 31 December 2020).

Vesting of these performance rights will be based on the TSR performance of AMP over the applicable four-year performance period relative to that of the entities in the market comparator group (being the top 50 industrial companies in the S&P/ASX 100 Index – based on market capitalisation rank at the start of the performance period). In determining this comparator group, all entities other than those in the global industry classification standard (GICS) energy industry and GICS metals and mining industry are classified as industrial companies. Broadly, TSR measures the percentage return to a shareholder over the relevant performance period in terms of changes in the market value of shares plus the value of any dividends paid and capital returns on the shares.

For the 2017 grant, the number of performance rights that vest and are converted into AMP shares after the end of the applicable performance period will be determined in accordance with the following vesting schedule:

TSR performance	Percentage of performance rights in the TSR tranche to vest
AMP's TSR ranking below the 50th percentile of the market comparator group	0%
AMP's TSR ranking at the 50th percentile of the market comparator group	50%
AMP's TSR ranking between the 50th and 75th percentile of the market comparator group	50% plus 2% for each additional percentile (rounded to the nearest whole percentile)
AMP's TSR ranking in at least the 75th percentile of the market comparator group	100%

The applicable four-year performance period is 1 January 2017 to 31 December 2020.

Shareholders will be advised of the vesting outcome for the 2017 LTI award in the annual report for the year ending 31 December 2020.

How many performance rights will be granted to the chief executive officer for 2017?

The number of performance rights in the 2017 grant is based on 225% of his fixed remuneration as at 1 April 2017. The formula used to calculate the total number of performance rights to be allocated to the CEO is set out below.

$$N = \frac{(225\% \times \$1,900,000)}{\text{Face value of an AMP share}}$$

where:

N is the number of performance rights to be allocated to the CEO. If N is a fractional number, it will be rounded up to the nearest whole number of performance rights.

225% is the actual percentage of the CEO's annual fixed remuneration determined by the board to be applicable for the CEO's LTI for 2017.

\$1,900,000 is the fixed remuneration of the CEO at 1 April 2017.

Face value of an AMP share is the volume weighted average price (VWAP) of AMP shares on the ASX during the 10-day trading period prior to the start of the TSR performance period (15 December 2016 to 30 December 2016) for the 2017 LTI award. The 10 trading day VWAP for this period was \$5.00. Based on this VWAP, the number of rights to be allocated is 855,000 rights.

When will performance rights be granted to the chief executive officer?

If shareholders approve the proposed resolution in item 4 at the 2017 AGM, the 2017 grant will be made in May 2017 following approval.

Can the board change the terms and conditions of performance rights?

The board may vary or waive any of the terms and conditions of performance rights in the 2017 grant (including the performance hurdle), but may not do so in a way that reduces the participant's rights (except in limited circumstances or with the participant's consent).

Additionally, the board may waive, amend or replace the performance hurdle for the 2017 grant if the board determines that the original performance hurdle is no longer appropriate or applicable, provided that the board is satisfied that the interests of the participant are not materially prejudiced or advantaged relative to the position reasonably anticipated at the time of the grant.

In some limited circumstances (such as a takeover bid being made for AMP or other change in control event occurring in relation to AMP), the board will have the discretion to determine whether some or all of the performance rights held by the CEO will vest, be retained subject to the original performance hurdles and performance periods, or lapse, having regard to all relevant circumstances. The performance rights will not vest automatically in such circumstances.

What will happen to the performance rights if the chief executive officer leaves AMP before the end of the vesting period?

If the CEO gives notice of resignation to AMP and his full contractual notice period ends before the specified vesting date, all unvested performance rights will lapse, unless the board determines otherwise. All performance rights will lapse if the CEO's employment is terminated by AMP for cause or inadequate performance. In other cases, including termination by AMP on notice, termination by agreement, death, disability, retirement or redundancy, the CEO's performance rights will be retained subject to the original performance hurdle and performance period, unless the board determines otherwise.

What will happen at the end of the performance period?

Under the LTI plan, if some or all of the performance rights in the 2017 grant satisfy the performance hurdle at the end of the applicable performance period and therefore vest, AMP will allocate shares to the CEO (at no cost to him) equal to the number of performance rights that vest, unless the board decides to pay him a cash equivalent in lieu of an allocation of shares. Any cash equivalent would be determined by multiplying an average market price of AMP shares at the relevant time by the number of shares to which he would otherwise be entitled on vesting.

If the performance hurdle is not achieved for some or all of the performance rights granted to the CEO, those performance rights will lapse immediately without re-testing of the performance hurdle.

Shares delivered to the CEO on vesting of any performance rights will be bought on-market and, therefore, will not dilute existing AMP shareholdings.

Are there other circumstances when performance rights may lapse?

The board may determine that any unvested performance rights granted as part of the CEO's 2017 LTI award (or shares allocated on vesting of those rights) will lapse or be forfeited in certain circumstances. For example, the board may decide that the CEO's unvested performance rights should lapse where it considers it appropriate to do so to protect the financial soundness of AMP, to meet unexpected or unknown regulatory requirements, or if the board considers that the grant of equity was inappropriate in the circumstances.

What will happen if shareholders do not approve the 2017 grant?

To compensate the CEO for the remuneration he would forgo if shareholder approval of his LTI is not given, the CEO is entitled, under his employment agreement, to receive a cash payment instead of performance rights in these circumstances. The CEO will only be entitled to receive a cash payment if the performance hurdle is satisfied or the rights would otherwise have vested.

For the 2017 grant, any such cash amount will be equivalent to the value the grant would have had at vesting if it had been approved by shareholders.

If you intend to appoint a proxy to vote on your behalf on the resolution for approval of the CEO's long-term incentive for 2017, please read the information on page 7 under the heading Chairman of the meeting as proxy.

Board recommendation

In the non-executive directors' view, it is in the best interests of shareholders to approve the share-based 2017 LTI grant to the CEO because vesting of the performance rights will be subject to a performance hurdle that appropriately aligns the CEO's remuneration with shareholder returns. Your directors (with the CEO, Craig Meller, abstaining) therefore recommend that shareholders approve the 2017 grant and the CEO's continuing participation in the LTI plan.

As the CEO has a personal interest in the resolution proposed in item 4, he abstained from the board decision to make a recommendation as to how shareholders should vote on this resolution.
